Meeting Minutes - Client Meeting #3

DFD 1 Review:

- Have it be so that the students can edit directly on the process' page and get feedback that way directly from the instructor as well without the need to save anything. The instructor can give feedback directly on this page too.

Client Request (TODO for next week):

- Come up with some information regarding hire details for the future maintenance roll for the website.
  - Title
  - Experience needed
  - Their roll
  - Salary
  - How many hours/week is needed

Idea for Future Testing:

- Let Ruth know if system will be ready to test with user groups as we can use her students as test subjects - perhaps at the end of November or early December.
